PROFESSIONAL SUMMARY

Computer Science graduate with practical experience in software development, technical support, database management, AI/ML, Linux, and hardware-integrated projects. Skilled in Python, Java, PHP, JavaScript, SQL/MySQL, and Git/GitHub.

Adaptable and detail-oriented with strong problem-solving skills and a willingness to learn new technologies. Seeking an entry-level technology role where I can apply my technical skills, solve real-world problems, and contribute to organizational goals.

EXPERIENCE

Full Stack Developer Intern — Nephila Web Technology Inc., Quezon City

- Maintained and supported the Moodle Learning Management System (LMS), assisting with system administration and day-to-day operations.
- Used PHP and MySQL for system maintenance, database management, troubleshooting, and resolving application-related issues.
- Managed user accounts, course configurations, and enrollment processes within the LMS.
- Provided technical support and troubleshooting to faculty and students, helping resolve system and access-related issues.

PROJECTS

Automated Chicken Egg Counting System — **Thesis** | YOLO, Python, TensorFlow, ESP32-CAM, Arduino

- Developed an AI-based system for automated chicken egg detection and counting.
- Integrated ESP32-CAM and Arduino for automated image capture and hardware control.
- Applied Python, OpenCV, and PyTorch/TensorFlow for image processing and object detection.

Garbage Waste Management System — **Project** | PHP, MySQL, HTML, CSS, JavaScript

- Developed a full-stack system for waste collection, customer management, scheduling, and transactions.
- Implemented CRUD functionality and responsive interfaces for managing system records.

EDUCATION

University of Antique – Main Campus — Bachelor of Science in Computer Science 2022–2026

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, PHP, C, C++, C#, MATLAB

Web Development: HTML5, CSS3, React.js, Node.js, Django, Laravel

Database : SQL, MySQL, Pandas, NumPy

Data & Analytics : Data Analysis, Data Visualization, Scikit-learn

AI & Machine Learning: YOLO, OpenCV, TensorFlow

Systems & Operating Systems: Linux, Windows

Development & Collaboration Tools: Git, GitHub, VS Code, PyCharm, PhpStorm

Hardware & Embedded Systems: Arduino, ESP32, ESP32-CAM

Software Development Concepts: Object-Oriented Programming, CRUD

CERTIFICATIONS

- Introduction to Cloud Computing — Coursera
- Introduction to Software Engineering — Coursera
- Data Science Essentials with Python — Cisco
- Data Analytics Essentials — Cisco
